DELTA PATENTS

Biotech

Our patent experts working in this field have extensive industrial experience in companies such as Zeneca and Gist-Brocades.

- Biotechnology
 - Genomics (NGS technologies and microarrays), proteomics, metabolomics/metabonomics, bio-nanotechnology and related technologies
 - Plant biotechnology (in particular plant secondary metabolism)
 - Fungal biotechnology
 - Medical biotechnology
- Microbiology
- RNA biology, RNA interference
- Natural products
- Pharmaceutical, chemical and life sciences
 - Drug discovery tools
 - 3-D molecular modelling structure-based drug discovery (virtual ligand screening)
 - Neurogenomics and cancer genomics
 - Drug delivery systems
 - Diagnostics /prognostics
 - Therapeutics
- Medical devices
- Vaccines
- Immunology
- Gene therapy
- Food products
 - (Functional) food technology
 - Nutrition
 - Nutraceuticals
- Fermentation processes
