DELTA PATENTS

Chemical Processes and Materials

Our patent experts in these fields have worked for many years for companies such as Shell, Gist-Brocades, Castrol, Foseco, Fosroc and Chem-Trend.

- Hydrocracking
- Catalytic cracking
- Isomerisation
- Catalysts
- Gasoline upgrading
- Rapid prototyping processes
- Bitumen
- Lubricants
- Greases
- Pharmaceuticals and intermediates
- Homogeneously catalysed syngas processes
- Thermoplastic elastomers
- Epoxy resins and their precursors
- Polyurethanes
- Starting materials for durable coatings
- Solar cells
- Vaporizers
- Glass
- Ceramics
- Paper products
- Textile products
- Cement and concrete products
- Nonwoven materials
- Starch
- Mold release agents
