DELTA PATENTS

Mechanical and Materials Engineering

Our patent experts in these fields have worked for many years in in-house IP departments of companies such as Shell and Philips.

- Machinery, mechatronics
 - Factory automation
 - Agricultural machinery, such as milk robots
 - Condition monitoring, position encoders, speed encoders, energy scavengers, load sensing, active suspension
- Actuators
- Bearings
- Sensors
 - Position, Velocity, acceleration
- Mechanical systems
 - Transportation equipment
 - Stationary industrial equipment such as conveyor belts
- Vacuum systems
- Production Facilities
 - Pipeline systems
 - Refineries
 - Gas processing plants
- Offshore equipment and processes
 - Drill platform structures
 - Rock mechanics
 - Exploration of natural resources, e.g., gas or oil
- Drug delivery systems
- Vaporizers
- Mining
- Foundry
