DELTA PATENTS

Physics

Our patent experts in this field have experience in research and in related industries, such as CERN, Philips and NXP.

- Optical technology
 - Optics and optical systems
 - Optical, X-ray and E-beam Lithography
 - UV optics and X-ray reflectors
 - X-ray discharge sources
 - Electron-optics
- Lighting systems and subsystems
 - Wave-guide design
 - LED technology
 - LCD backlight
 - OLED
 - Color conversion, luminescent materials
 - Color mixing
- Luminaires
 - Reflector design
 - Glare prevention
 - Heat sinks
 - Mounts for light sources
- Semiconductor and solid state physics
 - Manufacturing processes
 - Semiconductor materials
 - Diode and transistor physics
