REFRESHER
COURSE**

DELTAPATENTS WELCOMES YOU

Why DeltaPatents Training?

DeltaPatents is a **patent attorney firm** based in the Netherlands with a passion for quality. We provide the highest quality advice and service to public and private companies at various stages of growth from start-up to Fortune 500. Our patent specialists have a deep technological knowledge and extensive industrial experience. Through our education activities, we stay ahead in terms of law changes, case law and procedural requirements.

We are proud to be a leading training organization for the **European Qualifying Examination (EQE)**. Our renowned courses can be followed throughout Europe. We offer a complete range of courses and high-quality training material for the EQE. The knowledge and experience gained during more than 15 years of EQE training provides a solid basis for our comprehensive range of training courses in different areas. We offer **Continuing Education of Patent Attorneys** (e.g. patent law update course, a Unitary Patent course, and various IP master classes) across Europe as well as outside. For **R&D** (R&D managers, researchers, developers, inventors, entrepreneurs, IP management, IP coordinators and tech-transfer officers), we provide targeted IP tutorials and several workshops. These can also be organized in-house at your organization, open to other participants or exclusively in-house.

“It was a pleasure to study with such a skilled and nice instructor”

Our **blogs** keep you up-to-date on the EQE, EPO Case law, Patent procedures, Unitary Patent and Patent News.

In 2006 we started **training IP support staff**, culminating in a full training program preparing for the official Dutch Formalities Officers exam. The program includes training modules directed to EPC and PCT formalities. These training modules are offered throughout Europe.

Our training focuses on giving insight and understanding, and ensuring that the acquired knowledge can be practically applied. Unique for DeltaPatents is that we thoroughly train and guide our tutors. For our tutors, training is a profession, mastered by teamwork and frequent involvement in courses. We take feedback of attendants seriously and act on it. For us, quality and customer satisfaction are essential.

DeltaPatents' personal touch

We believe in teaching and treating candidates with a personal touch. You will be trained in small groups, giving ample opportunity to discuss unclear issues in more detail and get personal assistance. Hospitality is important to us. For participants staying in Eindhoven for courses of multiple days, we organize a social event, such as a dinner or a trip to a local place of interest. We welcome contact (e.g. via e-mail, telephone or video chat) with our tutors to ask follow-up questions, to clarify course materials or to report mistakes.

EQE PAPER B

1-DAY REFRESHER

COURSE

Objective

The 1-day refresher course is developed last year for candidates who were already fully prepared for EQE 2020 and who had to refresh their knowledge with new material for the EQE 2021 exam. The refresher course avoids using exam material of EQE 2017 or later. For the EQE 2023 it is an extra practice for first time sitters and a refresher for re-sitters.

Course Concept

The course aims to allow candidates to practice for Paper B in a very time-efficient manner. About 3-5 older B Papers (of 2016 or earlier) have been transformed into smaller cases, each addressing one or more issues specific to the new-style Paper B (e.g., allowable amendments, essential features, arguing inventive step).

Candidates are required to have completed the cases at home before the start of the course. A time investment of 3/4 - 1 day of preparation is expected. During the online session the cases will be discussed one by one.

Candidates will obtain a marking sheet for each case and will be provided with sufficient time to mark their own solution. Finally, a detailed model solution will be furnished for each case.

Additionally, *do's and don'ts* for successfully passing Paper B will be discussed, and time will be reserved for candidates to ask general questions about how to tackle Paper B.

Training Material

A set of cases, model solutions and marking sheets. The copyrighted course material is provided for the personal use of the participants, who are asked not to make reproductions without permission.

Who should attend?

The course is aimed at candidates preparing for the European Qualifying Examination 2022. It is an extra practice for first time sitters and a refresh course for re-sitters.

Course language

The course will be given in English and German.

Online training EQE 2023

The course is offered online. The online session will be from 9.00 hrs. to approximately 17.00 hrs. There will be regular short breaks and a 45-minute lunch break.

The course materials (cases, model solutions, marking sheets) will be shipped in advance or made available in our online training environment (Eduframe/Canvas).

Attendance limited to 24

A maximum of 24 students can take part in the course. This upper limit allows the tutor to discuss any unclear matters in more detail and provide personal assistance in practicing the cases/papers.

Certificate

Candidates will receive a certificate after attending the course.

Course fee

The price of the course is € 540 (excluding 21% VAT). An administrative fee of € 125 is charged for every booking.

If more than one course is booked at the same time, only one administrative fee of € 125 will be charged.

Registration

Please register for this course by using our [online registration form](#).

Cancellation policy

Please check our website (www.deltapatents.com) for our cancellation policy.

Meet the Tutors

- **Nico Cordes** is a tutor for Pre-Exam and Main Exam Paper A, B and C courses, also in German language. He is a European Patent Attorney in the field of Electrical Engineering.
- **Jelle Hoekstra** is a tutor for Pre-Exam, all Main Exam Papers and IP Administrators' courses. He is a European Patent Attorney. Jelle is author of the book "Methodology for Paper C" and of the book "References to the European Patent Convention" (www.hoekstradoc.nl).
- **Jessica Kroeze** is a tutor for the Main Exam Paper A and B courses, as well as for various general IP, patent drafting and patent formalities courses offered by DeltaPatents. She is a European Patent Attorney in the field of Physical Chemistry.

The tutors correct each year more than 125 A and B Papers together of candidates preparing for the exam.
