

DELTA PATENTS

Training for Patent Professionals

**EQE PAPER D
4-DAY GUIDED
TRIAL RUN
COURSE**

DELTAPATENTS WELCOMES YOU

Why DeltaPatents Training?

DeltaPatents is a **patent attorney firm** based in the Netherlands with a passion for quality. We provide the highest quality advice and service to public and private companies at various stages of growth from start-up to Fortune 500. Our patent specialists have a deep technological knowledge and extensive industrial experience. Through our education activities, we stay ahead in terms of law changes, case law and procedural requirements.

We are proud to be a leading training organization for the **European Qualifying Examination (EQE)**. Our renowned courses can be followed throughout Europe. We offer a complete range of courses and high quality training material for the EQE. The knowledge and experience gained during more than 15 years of EQE training provides a solid basis for our comprehensive range of training courses in different areas. We offer **Continuing Education of Patent Attorneys** (e.g. patent law update course, a Unitary Patent course, and various IP master classes) across Europe as well as outside. For **R&D** (R&D managers, researchers, developers, inventors, entrepreneurs, IP management, IP coordinators and tech-transfer officers), we provide targeted IP tutorials and several workshops. These can also be organized in-house at your organization, open to other participants or exclusively in-house.

“It was a pleasure to study with such a skilled and nice instructor”

Our **blogs** keep you up-to-date on the EQE, EPO Case law, Patent procedures, Unitary Patent and Patent News.

In 2006 we started **training IP support staff**, culminating in a full training program preparing for the official Dutch Formalities Officers exam. The program includes training modules directed to EPC and PCT formalities. These training modules are offered throughout Europe.

Our training focuses on giving insight and understanding, and ensuring that the acquired knowledge can be practically applied. Unique for DeltaPatents is that we thoroughly train and guide our tutors. For our tutors, training is a profession, mastered by teamwork and frequent involvement in courses. We take feedback of attendants seriously and act on it. For us, quality and customer satisfaction are essential.

DeltaPatents' personal touch

We believe in teaching and treating candidates with a personal touch. You will be trained in small groups, giving ample opportunity to discuss unclear issues in more detail and get personal assistance. Hospitality is important to us. For participants staying in Eindhoven for courses of multiple days, we organize a social event, such as a dinner or a trip to a local place of interest. We welcome contact (e.g. via e-mail, telephone or video chat) with our tutors to ask follow-up questions, to clarify course materials or to report mistakes.

EQE PAPER D

4-DAY GUIDED TRIAL RUN

COURSE

Objective

An added hurdle to passing the D paper is the limited time to answer. You need to practice dividing your time over the DI and the DII parts, and then answering questions using our own reference material to efficiently generate high-scoring answers. This 4-day course provides a final test of EQE readiness by practicing with recent D papers under limited time. You will be guided by a knowledgeable tutor through the solution of part of the papers, and solve the other parts on your own. You will learn about tactics for the paper, legal issues, exam technique, answering style and alternative solutions. By the end of the course, you will have identified your legal and methodology weaknesses, and will know the areas that you need to concentrate on in the last few weeks before sitting the EQE.

Guided Trial Run – practice papers

For half the course, you will work on about 15 DI questions, comprising the DI questions from past DI papers. We have also added some questions of our own directed to recent legal changes that are likely to be tested in the next EQE.

The tutor will guide the group through about 1/3 of these questions in small steps, to demonstrate how such questions should be approached at the EQE and how a high scoring answer can be generated. For the

other 2/3 of the questions, you will work on your own under exam time-pressure to practice what you have been shown.

Our model solutions will be presented, and the group will be encouraged to ask questions about why certain parts are included, why others are missing, where the points are given and, if appropriate, to suggest alternative solutions.

During the other half of the course, DII will be addressed using questions from past DII papers and a small DII case. The tutor will guide the group through a DII paper in steps, to demonstrate how all the information can be analyzed, sorted and ordered. The group will then be guided through planning and generating a high-scoring answer. Between steps, group discussions will be used to keep everybody on track and to share experiences. Flowcharts and examples are provided, so that the stages are clear and consistent. After learning lessons from the first DII paper, you will make the DII part of another DII paper under exam time-pressure. Our model solution will be presented, and the group will be encouraged to discuss differences and similarities between our solution and yours.

Course highlights

DeltaPatents' own model solutions, fully updated for all recent legal changes, showing interpretation of the question, an approach to answering and the resulting high-scoring answer complete with annotations.

Guidance through the several DI exam questions, illustrating how DI questions should be read, analyzed and solved.

Guidance through one DII paper, illustrating how a DII paper can be solved and what is required in your answer for a high score.

Full documentation, including tactics for dividing time between DI and DII, explanation of materials to take to the EQE and DeltaPatents' own solutions to the DI questions and DII papers.

Training Material

A comprehensive set of high quality, up to date training materials will be provided in a binder including:

Overhead sheets summarizing an approach to DI and DII, time management issues, materials to take to the exam, and tips for the exam.

Standard questions that need to be answered on DII.

Standard abbreviations which may be used in your EQE answers without first defining them.

Overviews showing of Official Journal and PCT Newsletter references that are most likely to be on the next EQE D paper.

Flowcharts for DI and DII showing the steps taken during the guided parts.

DeltaPatents' own model solutions for the DI and DII papers practiced. Initially based on past EQE papers, they have been fully updated to incorporate the latest legal changes, and demonstrate how the DeltaPatents' methodology has been applied.

Where relevant, we will use WISEflow, giving you the opportunity to get familiar with the system used during the e-EQE.

The copyrighted course material is provided for the personal use of the participants.

Please bring the books which you intend to use during the exam.

All materials have been updated, where necessary, to the legal situation on 31 October 2023.

Not included in the materials

The Main Exam Questions for Paper D book is NOT included in the materials of this methodology course.

D papers used in this course

Papers and questions that will be used in this course will be announced as soon as possible.

How is this course different from other Paper D seminars?

- We use fewer DI questions to allow more interactive discussion of the answer you need to produce.
- We spend as much time on DII as DI because this is where the problems usually are.
- We concentrate on both legal issues and methodology, so that you can optimize the points scored for the things you know.
- We guide you through DI and DII parts to demonstrate how a good answer can be generated without hindsight of what the answer should be.
- We provide our own model solutions for all questions, and we encourage interactive discussion of style, detail and alternative solutions.
- We use the DI and DII parts of past papers and will offer a set of recent DI questions.
- All the questions used are either from past exams, or are composed by us to resemble possible exam questions in 2019.
- All of our questions and materials have been updated to the legal situation on 31 October 2024, and we prepare you to deal with the 5,5 hour paper in 2025.
- We teach and practice tactics for efficiently dividing your time between the DI and DII parts, and demonstrate this on past exam papers.
- We provide overviews of recent legal changes, OJEPO, G-decisions and PCT newsletter notices that we think are particularly relevant for 2025.
- We provide a recommended list of books and references to take to the D paper.

Who should attend?

The course is aimed at participants preparing for the EQE. Participants are expected to have reached an advanced stage in their own preparations, with their legal knowledge close to exam level and having practiced at least two D papers (DI and DII) already. It is very suitable for re-sitters, but also for first time sitters.

Prior training

All of the D training and model solutions are based upon DeltaPatents' new DI and DII methodology, developed and tested using the comments and experiences of many former candidates. You will get the most benefit from this course if you have followed our D Methodology course and practiced it. However, for those unfamiliar with our methodology, the tutor will gladly guide you through the questions, and provide brief explanations when necessary so that you can successfully complete this course. As a minimum, you should have at least made two D papers beforehand so that you are familiar with the issues and problems that are to be discussed. Candidates are advised to have followed the DeltaPatents Methodology course and the Guided Exam course. During the Guided Exam course, one D paper has been corrected and another D paper has been practiced, guided by the tutor.

Training path for Paper D

For Paper D (DI and DII) we suggest the following courses:

- 3-day Paper D Methodology
- 2-Day Paper DI and DII Guided Exam (*strict condition: you must have followed the 3-day Methodology course*)
- 4-Day Paper D Guided Trial Run (practice DI and DII guided by the tutor)
- 1-day Paper D Mock Exam (practice a D paper under real exam conditions, using WISEflow)

“Thank you so much for all your help in my preparation for Paper D, which was the last exam I had to pass. I have spoken and still speak very warmly about your courses to candidates that have to go through the exam.”

Course language

The course will be given in English in the Netherlands, and in German in Germany.

Online and on-site training EQE 2025

For Foundation as well as Main Exam, we will offer online training courses and if the situation permits, also on-site training.

We understand that it will be different, the interaction between tutor and candidates will be different. You are used to our high-level courses and we will do our utmost to continue to offer this service, also through our online training courses.

How does it work:

For the online training, we use WebEx. With this system you can interact with the tutor and the other candidates, ask questions and give answers to the questions of the tutor.

Course days will be from 9.00 hrs. to approximately 17.00/17.30 hrs. We will present the topics in blocks of 45 to 60 minutes, followed by a 15 minute break. For lunch we will have a 45 minute break.

The course materials will be shipped to you beforehand. Additional materials will be available in our online training environment (Eduframe/Canvas).

At this moment, some Methodology courses are scheduled as online training courses and some are on-site. The Guided Exam courses are only offered as an online course. The fees for the online course are lower, reflecting the lower costs.

Attendance limited to 24

A maximum of approximately 24 participants can take part in the course. This limitation will give the tutor the opportunity to discuss unclear issues in more detail and provide personal assistance during the practicing of the cases and the paper.

Certificate

All participants will receive a certificate after attending the course.

Registration courses

Please check our website for the actual prices.

Shipment outside the EU

If given online, we will ship the course materials to the office address of each candidate (instead of to the course venue). Shipment costs to the EU are included in the course fee. Additional shipment and customs costs for countries outside the EU (e.g. Turkey, Switzerland, Norway and the United Kingdom) will be added to the standard course fee for the online courses. It is advised that candidates from the same company attending the same course, use their office address for shipment of the course materials. All materials can then be shipped at the same time, which keeps the costs low.

Discount when registering for extra Paper D courses (5-day, 7-day or 9-day Package)

If you register for the 3-day Paper D Methodology course as well as the 2-day Paper D Guided Exam and/or the 4-day Paper D Guided Trial Run course, you will receive a discount of € 200 for each extra course (on the course fee of the Guided Exam and/or the Guided Trial Run course). This offer only applies to courses taken in the same EQE year.

Registration

Please register for this course by using our [online registration form](#).

Cancellation policy

Please check our website (<https://www.deltapatents.com/registration-and-cancellation/>) for our cancellation policy.
